We also update frequently to guarantee that the client can get more learning CRE-KR resources and follow the trend of the times, Let's fight together.

NEW QUESTION: 1

Password history policies are used to prevent:

- A. Social engineering
- B. Brute force attacks
- C. Users from sharing passwords
- D. Passwords from being reused immediately

Answer: D

Explanation:

This security setting determines the number of unique new passwords that have to be associated with a user account before an old password can be reused. The value must be between 0 and 24 passwords. This policy enables administrators to enhance security by ensuring that old passwords are not reused continually.
