You need to recommend a solution for the documents stored in the Finance site.

What should you recommend?

- A. For each library, enable sensitivity labeling that uses protection
- B. Enable an Information Rights Management (IRM) policy for the libraries
- C. From Settings in the SharePoint admin center, enable Information Rights Management (IRM) for SharePoint Online
- D. Enable Azure Information Protection policy labeling

Answer: A

Explanation:

Explanation/Reference:

Scenario: The locally stored content is not classified as confidential and users can email documents to external people. Apply Azure Information Protection to protect files in a highly confidential SharePoint Online team site.

Configure Azure Information Protection with a new scoped policy and sub-label for protection and permissions of your highly confidential SharePoint Online team site.

Note: Details:

1. Sign in to the Office 365 portal with an account that has the Security Administrator or Company Administrator role. For help, see Where to sign in to Office 365.
2. In a separate tab of your browser, go to the Azure portal (<https://portal.azure.com>).
3. If this is the first time you are configuring Azure Information Protection, see these instructions.
4. In the list pane, click All services, type information, and then click Azure Information Protection.
5. Click Labels.
6. Right-click the Highly Confidential label, and then click Add a sub-label.
7. Type a name for the sub-label in Name and a description of the sub-label in Description.
8. In Set permissions for documents and emails containing this label, click Protect.

NEW QUESTION: 4

The IS auditor learns that when equipment was brought into the data center by a vendor, the emergency power shutoff switch was accidentally pressed and the UPS was engaged. Which of the following audit recommendations should the IS auditor suggest?

- A. Escort visitors.
- B. Relocate the shut off switch.
- C. Log environmental failures.
- D. Install protective covers.

Answer: D

Explanation:

A protective cover over the switch would allow it to be accessible and visible, but would prevent accidental activation.

Incorrect Answers:

- A: Relocating the shut off switch would defeat the purpose of having it readily accessible.
- C: Escorting the personnel moving the equipment may not have prevented this incident.

D: Logging of environmental failures would provide management with a report of incidents, but reporting alone would not prevent a reoccurrence.
