Answer: B,C

NEW QUESTION: 3

Which two statements about content filters on the Cisco ESA are true? (Choose two.)

- A. Each content filter requires one or more actions.
- B. They can be applied before or after message filters.
- C. Each content filter requires one or more conditions.
- D. After you create a content filter, you can create an encryption profile to encrypt messages that match the filter
- E. They are applied to the message after antispam and antivirus scanning is performed

Answer: A,B

Explanation:

Explanation

Explanation/Reference

Content filters are similar to message filters, except that they are applied later in the email pipeline

- after message filtering, after a message has been "splintered" into a number of separate messages for each matching mail policy, (see Message Splintering for more information), and after the message has undergone anti-spam and anti-virus scanning.
