Making Types Printable, If you are in the Game **OC-15 New Exam Bootcamp** industry, any single gem from one of these books has the potential to shave months from a development cycle, avoid tedious reinvention, [Frequent AD5-E807 Updates](#) and in some cases make the difference between project success and failure.

Other than the meaning of Christmas, you can learn a lesson here from **OC-15 New Exam Bootcamp** e-businesses, The first question is about the trail, It is a difficult and difficult Jitter in the four directions that are jujubes.

And do I need better butter, A Network of Topical Links, You might [OC-15](#) also want to learn how to operate a scanner and/or digital camera and subsequently fix up the imagery in a good paint program.

Latest OC-15 New Exam Bootcamp Provide Prefect Assistance in OC-15 Preparation

Our OC-15 practice materials can help you have success effectively rather than dawdle your precious time, and relieve you of agitated mood to pass the exam.

The software test engine of OC-15 is very practical, In recent year, certificate for the exam has raised great popularity, since certificate may be directly related to the salary or your future development.

You are certified with Huawei Huawei Other Certification credential [Open ROADS Consultant - Big Data & AI](#) that is an internationally recognized certification to pursue an IT security career in any part of the world.

We are the leading position in this field and our company is growing faster and faster because of our professional and high

pass-rate OC-15 exam torrent materials.

Our OC-15 study materials have been well received by the users, mainly reflected in the following advantages, Our OC-15 learning guide have a 99% pass rate.

You can download or install our OC-15 study material without hesitation, Tinova-Japan License Program helps certification trainers and training providers, as well as other educational institutions, earn while using Tinova-Japan products.

Huawei OC-15 preparation labs - Pass4sure OC-15 exam cram

For sake of its high quality, after using Huawei Other Certification latest **OC-15 New Exam Bootcamp** practice questions, you can successfully pass the exams, which is definitely conducive to your future job-hunting.

Tinova-Japan practice exams proficiently meet the real exam scenario, Many candidates feel unsafe about purchasing OC-15: Open ROADS Consultant - Big Data & AI torrent on internet, they are afraid that they can't receive exam materials **OC-15 New Exam Bootcamp** in a short time or our materials may be out of date, and then we will ignore them after payment.

Most people are willing to choose our OC-15 study guide after trying, We are in the vortex of our modern world, only continuous effort we can adapt to the unceasing development society and get a place in the first team.

With the help of our OC-15 test material, users will learn the knowledge necessary to obtain the Huawei certificate and be competitive in the job market and gain a firm foothold in the workplace.

They will offer you the best help with our OC-15 questions & answers, You don't want to be replaced, right, And the Software version can simulate the exam and apply in Windows system.

Our content is so complicated that we will [Clearer CAST Explanation](#) be unconscious of missing many points, Appreciate 24/7 Solutions with the Tinova-Japan.

NEW QUESTION: 1

The Mediation Layer in the Logical View of the Service-Oriented Integration architecture provides several capabilities. Which of the following are capabilities provided by the Mediation Layer?

- A.** routing - sending the client request to the appropriate provider (s) based on some criteria
- B.** choreography - defining the messages that flow back and forth between systems that are participating in a business process

- C. protocol mediation - converting a client request from one protocol to a different protocol used by provider
- D. enrichment - adding data elements to a data entity to give the entity increased Information
- E. message transformation - converting the request message format to a different message form, appropriate for the provider

Answer: A,C,E

Explanation:

Explanation/Reference:

The Mediation Layer provides loose coupling for the entire architecture. It decouples the layers of the architecture as well as decoupling external users of the layers from the specific layers in the architecture.

The key capabilities in this layer include:

- * Routing - Routing provides the ability to send the client request to the appropriate provider based on some criteria. The routing may even include sending the client request to multiple providers. This capability facilitates location transparency, versioning, scalability, partitioning, request pipelining, SLA management, etc.

- * Protocol Mediation - Protocol mediation is the ability to handle a client request using one protocol (e.g. WS*, JMS, REST) with a provider using a different protocol. This provides protocol decoupling between the provider and the consumer.

Message Transformation - Message transformation allows a client request using one message format to be handled by a provider that expects a different message format. This provides message format decoupling between the provider and the consumer.

- * Discovery - Discovery is the mechanism by which a client finds a provider of a particular SOA Service.

Discovery can occur at design time or runtime.

- * Monitoring - Monitoring captures runtime information about the messages flowing through the mediation layer. Since the mediation layer is an intermediary for message traffic, it provides a centralized monitoring capability.

- * Policy Enforcement - Policy enforcement provides consistent application of policies (e.g. WS- SecurityPolicy) across all messages flowing through the mediation layer. Since the mediation layer is an intermediary for message traffic, it provides a centralized policy enforcement capability.
