We do our best to provide reasonable price and discount of Cisco Certification pdf vce training, In fact, 700-846 certification has proved its important effect in many aspects of your life.

NEW QUESTION: 1

A media company has a static web application that is generated programmatically. The company has a build pipeline that generates HTML content that is uploaded to an Amazon S3 bucket served by Amazon CloudFront. The build pipeline runs inside a Build Account. The S3 bucket and CloudFront distribution are in a Distribution Account. The build pipeline uploads the files to Amazon S3 using an IAM role in the Build Account. The S3 bucket has a bucket policy that only allows CloudFront to read objects using an origin access identity (OAI). During testing, all attempts to access the application using the CloudFront URL result in an HTTP 403 Access Denied response.

What should a solutions architect suggest to the company to allow access the objects in Amazon S3 through CloudFront?

A. Modify the S3 upload process in the Build Account to add the

bucket-owner-full-control ACL to the objects at upload.

B. Modify the S3 upload process in the Build Account to set the object owner to the Distribution Account.

C. Create a new cross-account IAM role in the Distribution Account with write access to the S3 bucket. Modify the build pipeline to assume this role to upload the files to the Distribution Account.

D. Create a new IAM role in the Distribution Account with read access to the S3 bucket. Configure CloudFront to use this new role as its OAI. Modify the build pipeline to assume this role when uploading files from the

Answer: C

NEW QUESTION: 2

Scenario

Additional Information

Further information on some resources who could be involved in the project:

Outcome Account Manager: He represents Outcome which is a recruitment agency that provides specialist outsourcing resources. Outcome provided the consultants who carried out the feasibility study and the same consultants will be providing support and guidance to the Information Technology and Facilities teams during the project.

Director of Finance Division: She was transferred from the Information Technology Division 12 months ago. She is responsible for ensuring a cost-conscious approach is adopted in all operational and project activities across the Ministry of Food Hygiene.

Hardware Manager: Reports to the Director of Information Technology. He provides computer hardware to all business functions but has little awareness of the needs of his colleagues working in software.

Payroll Manager: Reports to the Director of Finance. He is a very experienced and efficient qualified accountant who has much of the responsibility of running the Finance Division on behalf of the Director of Finance. He has been involved in drafting the Ministry's business strategy and assisting in a full business risk assessment. He also drafted the corporate Business Case standards.

Which 2 alternative actions apply to the proposed Senior User for this project?

A. Replace with 'Director of Research and Development' because she deals with both the Information Technology and the Facilities Divisions and can make sure her division's needs are specified.

B. Retain because he provides the outsourcing resources required to support the project.

C. Remove because he has no authority to commit user resources.

D. Add 'Hardware Manager' because he provides computer hardware

to all business functions and will be impacted by the outcome.
E. Retain because he will be providing support to the Information Technology and Facilities teams during the project.

Answer: A,C

NEW QUESTION: 3

You are working on a home computer with Microsoft Office 2010 installed on it. The computer has two tables named Projects and ProjectDetails created in Microsoft Access 2010. Both tables are connected with each other by a one-to-one relationship. You find that there is no need of relationship between them. What will you do to completely remove the relationship between the tables?

Each correct answer represents a part of the solution. Choose three.

- A.** Choose the tables from the Navigation Pane and click the Delete button.
- B.** Open the Relationships window.
- C.** Click on each table and press the Delete key.
- D.** Click on the line that connects both the tables and press the Delete key.

Answer: B,C,D

Explanation:

In order to completely remove the relationship between tables, you should take the following steps:

1. Open the Relationships window.
2. Click on the line that connects both the tables and press the Delete key.
3. Click on each table and press the Delete key.

Answer C is incorrect. It deletes the table that you choose in the Navigation Pane.
